LC - Can I describe a setting/event using the senses? (Part 2)

1. Watch the clip from the walls starting to crack to the end (52sec - End) and see if you can find at least three things that you can see and three things that you can hear:

(Challenge - See if you can more than three things)

**What can you see?**

- **Unknown creatures destroying building – causing havoc**
- **Beast out of control**
- **Glass shattering**
- **People screaming and running away**
- **Walls cracking on buildings/ masonry flying everywhere**
- **Road ripped open like a zip**
- **Cars being tipped over**

**What can you hear?**

2. Now look at the pictures from the clip – can you spot anything else that you missed on the clip and add it to what you can see?
